

# DVB-T ANTENNA

## Antenna DVB-T AA-388

AO-ADVBT-05P

SECTRON company offers wide portfolio DVB-T antennas with various versions differing in shape, level of gain or attachment manner. SECTRON guarantees compatible connection between antenna and all antenna adaptors produced by SECTRON.

### BENEFITS

- Low VSWR
- Optimized high frequency Gain
- Flexible

|                       |                                      |
|-----------------------|--------------------------------------|
| Technology            | DVB-T                                |
| Frequency bands       | 174/200/470/500/600/700/800/ 864 Mhz |
| Bandwidth             | -                                    |
| Gain                  | 3 dBi                                |
| VSWR                  | <1.8: 1                              |
| Impedance             | 75 ohm                               |
| Directivity           | Omnidirectional                      |
| Beam angle            | H 360° V 30°                         |
| Polarization          | Vertical                             |
| Maximum input power   | 10W                                  |
| Power voltage         | -                                    |
| Dimensions            | 52 x 337 mm                          |
| Weight                | 5.57 g                               |
| Operating temperature | -40 to +85 ° C                       |
| Execution             | External                             |
| Method of attachment  | Magnetic                             |
| Cable type            | RG6                                  |
| The cable length      | 3.5 m                                |
| Connector type        | PAL/EIC                              |
